

Project Partners

The Montana Partnership with Regions for Excellence in STEM (MPRES) project is designed to build upon two previous successful Montana Science Partnership grant projects to improve K-12 science student achievement and teacher instruction and incorporate the Framework for K-12 Science Education. Numerous institutions and individuals in Montana have come together to make the MPRES possible, including:

- [Montana State University-Billings](#) ([Dr. Ken Miller](#), Co-Director)
- [Montana Tech of the University of Montana / Clark Fork Watershed Education Program](#) ([Rayelynn Connoles](#), Co-Director)
- [Alliance for Curriculum Enhancement](#)
- [Billings Public Schools](#)
- [Butte School District #1](#)
- The five [Montana Regional Education Service Areas](#)
- Funding provided through a [Mathematics and Science Partnerships Program \(MSP\) Grant](#) (2013-2015) from the [Montana Office of Public Instruction](#)
